

VEGA acryl-siloxane paint for interiors

Water-based paint composed of: acrylic residuatericides, water repellents	ns in emulsion,	aggregates,	pigments,	additives,
specific weight				1,62-1,64
pH				8-9
thinner				water
gloss level				matt
washability				good
vapor permeability				good
			VOC	C < 30 gr/lt
environmental classification				A
no requirement for specific labelling				
1 year in the original packaging if stored betwee	n +5°C and +40°	С		
preserved and adherent plasters. These grounds must be absorbent, flat, clean, h cleaned and consolidated.	ealthy and dry.		-	
7 0 1		35°C, away	from bad	weather or
Apply in two coats with a brush, roller or gun.				_
dilution	first coat			25%
	second coat			5-10%
Interval between two passes			1	0-12 hours
Cleaning of tools				water
for 2 coats				7-8 m2/lt
	bactericides, water repellents specific weight pH thinner gloss level washability vapor permeability volatile organic components environmental classification no requirement for specific labelling 1 year in the original packaging if stored betwee It is applied on plasters, prefabricated panels, preserved and adherent plasters. These grounds must be absorbent, flat, clean, h cleaned and consolidated. Do not apply on surfaces subject to rising damp. Laying and drying must be carried out betwee excessive sun. When laying, avoid applying free from different batches on the same wall. Apply in two coats with a brush, roller or gun. dilution Interval between two passes Cleaning of tools	bactericides, water repellents specific weight pH thinner gloss level washability vapor permeability volatile organic components environmental classification no requirement for specific labelling 1 year in the original packaging if stored between +5°C and +40° It is applied on plasters, prefabricated panels, plaster, wood, preserved and adherent plasters.
